About Me

I am a graduate from Tunku Abdul Rahman University of Management and Technology (TARUMT), where I achieved a Distinction in Bachelor of Computer Science (Hons) in Interactive Software Technology. I am a passionate, determined and optimistic individual with a strong interest in software development and interactive technologies. I enjoy coding and continuously upskill myself by participating in game jams during my free time. During my studies, I also participated in multiple CTF cybersecurity competitions, which enhanced my critical thinking, teamwork and technical problem-solving abilities. Outside of academics, I enjoy gaming and am a proud cat person.

EDUCATION

Bachelor of Computer Science (Hons) in Interactive Software Technology

Tunku Abdul Rahman University of Management and Technology

June 2023 - July 2025

CGPA: 3.8714

Diploma in Computer Science

Tunku Abdul Rahman University of Management and Technology

June 2021 - June 2023

CGPA: 3.9759
